

# GEC Announces \$1.5 Million Funding for Company Projects

Tuesday, August 16, 2011

**August 16, 2011, Montclair, New Jersey** -- [Global Ecology Corporation](http://www.geco.us) (GEC), (GLEC:OTCQB) announced today that it has received an initial draw as part of a \$1,500,000 funding from an investment partnership that will enable the company to expedite the completion of current development projects.

These projects include three Alabama organic fertilizer-blending centers and the expansion of its existing Florida soil amendment locations. The funding will also help expedite the completion of the U.S. government registration for its IMS1000 chemical products and related water-cooling tower efficacy testing.

Additionally, the company will now have the means to invest more capital in the development and execution of its product lines and its marketing and distribution strategies.

GEC President Peter Ubaldi said, "This important investment is the first of several significant developments focusing on domestic market expansion that we expect to announce in the coming weeks and months. We look forward to providing additional details."
